Features

Teslyte TL-BL-5WM-R series designed for high-performing and energy-saving LED technology with passive infrared (PIR) outdoor sensor option that raises or lowers the electric lighting level to high, low or off based on motion or daylight contribution. The stylish shape enhances the sense of place and identity.

- **Housing:**
 - Extruded Aluminum housing for superior durability.
 - Properly secure all components within the housing.
- **Finish:**
 - Powder coat finish that provides superior resistance to corrosion, weathering, and scratches.
- **LEDs:**
 - Integral highly efficient LED module and driver.
 - LED 30W, PIR sensor with programmable two-level options and time delay (full load, 50% or 30% load or Off) option.
- **Applications:**
 - Low-level path and walkway.
- **Mounting:**
 - Mounting kit included with anchor bolts.
- **Ratings:**
 - Suitable for wet locations.
 - 5-year warranty.
